## **Scientific exchange between German partners and the Chinese Academy of Sciences in Wuhan**

At the same time as chancellor Merkel's visit, a small group of the SIGN2 consortium (RWTH Aachen, TZW, IWW, KIT) visited the Chinese Academy of Sciences in Wuhan at the end of the travel to China in September. Under the organization of the State Key Laboratory of Freshwater Ecology and Biotechnology (institute of hydrobiology), a one-day workshop offered a good opportunity of getting to know each other and to identify joint research interests.

At the end of the workshop, the organizers gave the German colleagues a detailed laboratory tour, during which they were able to admire the huge China Zebrafish Resource Center.

### **德国合作伙伴与中国科学院在武汉的科学交流**

在默克尔总理访华的同时，SIGN2 团队的一个小团体（亚琛工业大学 RWTH Aachen, TZW, IWW, 卡尔斯鲁厄理工学院 KIT）在 9 月访华行程结束前访问了位于武汉的中国科学院淡水生态与生物技术国家重点实验室（水生生物研究所）。在水生所的组织下，为期一天的研讨会为中德双方提供了相互了解和确定共同研究兴趣的良好机会。

研讨会结束后，主办方带领德国同事全面的参观了水生所各大实验室，包括大型中国斑马鱼资源中心。
